Pros & Cons

Pros: Consistently high return on equity above 20% demonstrates exceptional capital efficiency, Operating profit margin above 25% indicates strong pricing power and cost discipline, Revenue growing slower than profits shows improving operating leverage and scale benefits
Cons: Debt-to-equity ratio of 8.52 is elevated for a non-financial company and warrants monitoring, Interest coverage ratio below 1.5x indicates the company is at risk of not meeting its debt obligations, Return on capital employed below 10% suggests the business is not generating sufficient returns on invested capital, Net debt exceeding 3 times EBITDA is a high leverage ratio and limits financial flexibility
